

Vision

Nuclear Professional

As Nuclear Professionals we find the following important

- A nuclear professional knows and assumes their responsibility for their behaviour and their work.
- (Nuclear) safety is our number one priority.
- We take responsibility for protecting the core at all times, in order to prevent harmful effects resulting from radioactive releases and radiation.
- We look out for each other, and with that we take care of the core.
- A nuclear professional is aware of their unique work environment, and is proud of it.

You can therefore recognize us by the following principles and corresponding exemplary behavior

A nuclear professional...

- actively maintains their knowledge and skills at the right level
- maintains a high standard in their work and activities
- is committed to continuously improving
- adopts a critical attitude, understands risks, and accepts no deviations
- ensures a good work environment
- has a proactive and positive attitude
- works with others
- communicates clearly
